Please use the chorev edition of Mishna Behira with pictures for Terumos. The picture numbers I refer to are from this edition.

The above program reflects the limud based on what is covered per shiur in the MasterTorah Pshat mishna shiurim.

Here are the 9 rules. Follow these and in 3 years or less you will know ששה סדרי משנה and have reviewed it between 50 and 100 times.

- 1) EVERY day the limud is broken up into 2 parts: 75-90 minutes of “current” limud and 30 minutes of a cycle of back review.
- 2) EVERY day 30 minutes is to be used to review starting from the beginning and covering whatever you can and continue from there the next day. You should be able to do AT LEAST 6-10 perakim of חזרה during this time. (so if one day one you did perek 1-6 in ברכות you continue from פרק ז the next day and so on.) It is THIS part of the limud which guarantees you will remember what you learn and know it BETTER six months AFTER you learned it than you did the day you learned it.
- 3) On days where there is shiur (3-4 days a week) you listen to shiur and review INSIDE 4 times immediately after the shiur. This takes 30 min (shiur) plus 45-60 min חזרה. It is important that you try to make this a one block time and not do shiur at one time and then the חזרה of the days shiur at a separate time. This represents the initial קנין. Sure you THINK you know it after one חזרה: RESIST THE TEMPTATION AND DO IT 4 TIMES. Remember you must know and pay attention to all details (yes including and ESPECIALLY names)
- 4) On Tues and Fri you are to review the previous 2 days shiurim 2 more times plus look over the review questions (usually at least 100 per shiur) to make sure you know EVERY detail. The questions are the total companion to everything said in the shiur. This should take you 75-90 min. If it takes less, review the previous days shiurim 3-4 times instead of just 2. Then don't forget the 30 min חזרה of older material.
- 5) On שבת you review the shiurim of the week 4 times each for the 75-90 minutes and then you do your 30 min of back review.
- 6) If you follow this program you will on average learn at least 4 new perakim a week and review them at least 11 times by weeks end (shiur plus 4 reviews on same day, two more times on either Tues or Fri and 4 more times on שבת). In addition you will be reviewing AT LEAST 6 Perakim a day 7 days a week (or 42 Perakim a week and this is most conservative estimate)
- 7) Test days are scheduled on shiur days so that time for them is easy to find. On those weeks there are only 3 new shiurim instead of 4
- 8) If for whatever reason you don't have the full 2 hours to learn- DO NOT LEARN A NEW SHIUR. Do only the 30 min review. If you

make the mistake of going further and NOT doing the back review this will become a habit which will cause you at the end of the day to master nothing. This is the most critical piece of advice. DO NOT EVER MISS THE 30 min of back review. If you do fewer shiurim a week but always do back review while you may progress more slowly you will master whatever you learn. If you move more quickly but cheat on review time you will ultimately master nothing.

- 9) Find the קב ונקי edition of משניות to use especially for your הזרה. It has a chart to keep track as you aim for 101 הזרות. It also lays out the משנה and מאן דאמרימ in a way that helps remember. It comes in 1 volume, 2 or 3 volume editions. I suggest the 3 volume edition either large or medium size.
